Rabies post –
exposure
prophylaxis

Rocky Mountain
Spotted Fever

Streptococcus
pneumoniae, drug-
resistance invasive
disease

●Syphilis, other than
primary, secondary,
early latent, or
congenital Toxo
Plasmosis

●Report to (502) 574-6699.

▲ All cases of HIV infection/AIDS are reportable, in accordance with KRS 211.180(1)b, and must be reported using the CDC HIV/AIDS Case Report Form. To obtain case report forms, or report a case of HIV infection or AIDS call:

Louisville Metro Health Department HIV/AIDS Surveillance Program: call (502) 574-6574, for the following counties: Jefferson, Bullitt, Henry, Trimble, Shelby, Oldham and Spencer.

For all other Kentucky counties: call the KY HIV/AIDS Surveillance Program at: 1-866-510-0008.

NOTE: Animal bites shall be reported to local health departments within twelve (12) hours in accordance with KRS258.065 at (502)574-6650.

The Reportable/Communicable Disease Unit includes epidemiology activities directed toward disease surveillance, prevention, detection, management and control of communicable diseases throughout the community. This Unit investigates any possible infectious disease reports to assure that proper measures are taken to stop an outbreak before it occurs.
